

Test report

1. Add app icon
2. Use same colour code of logo bg colour while on splash screen instead of black use the same colour
3. Instead of learn more button change it to post now and navigate to add post

4. Instead of using emoji use linear or filled svg and should be consistent,if possible only (use any icon package something like merterial or etc .)

5. Improve ui this looks heavy

6. Continue with Google not working
